### Avoid Costly Vehicle Repairs

Buying a vehicle is one of the largest purchases of a person's life. New vehicle quality continues to improve; however, repair costs continue to rise. Repair costs are rising because today's technologically advanced automobiles operate and rely on multiple onboard computers and sensors. It is not a secret that statistics show most major breakdowns occur after the factory warranty has expired. At this time, you are 100% responsible for all repairs.

MasterTech, however, assumes this risk by providing coverage in the event of a covered mechanical breakdown.

The MasterTech Vehicle Protection Program protects your vehicle investment and enables you to enjoy peace of mind to drive with confidence. By locking in rising parts and labor costs at today's prices, you will not be responsible for significant out-of-pocket repair expenses in the future.
