FORT PAYNE, ALABAMA
When the situation calls for capability and versatility, Silverado Crew Cab 1500 Special Service Vehicle (SSV) WT and LS do more than deliver. Their power comes from a 5.3L V8 EcoTec3 engine—the most fuel-efficient gas V8 offered in a pickup. Better still, advanced technologies such as Active Fuel Management with cylinder deactivation, Variable Valve Timing, and Direct Injection offer a leg up.

Silverado SSV is a proven performer built with specialized components including an auxiliary battery, 110V outlet, high-output alternator, high-capacity air filter, and available spotlamps. And with a maximum payload of up to 1820 lbs and a towing capacity of up to 9400 lbs, Silverado 1500 SSV answers the call under just about any conditions.

---

1This vehicle is not designed nor intended for use in high-speed emergency-vehicle operations. 
2EPA-estimated 16 city/23 hwy mpg (2WD) and 16 city/22 hwy mpg (4WD) with the 5.3L V8. 
3Crew Cab Short Box 4WD model. For comparison purposes only. See the Owner's Manual and the label on the vehicle door jamb for the carrying capacity of a specific vehicle. 
4Requires Crew Cab Short Box or Standard Box 2WD model with available Trailering Package and available 3.42 axle ratio. Before you buy a vehicle or use it for trailering, carefully review the trailering section of the Owner’s Manual. The weight of passengers, cargo, and options or accessories may reduce the amount you can tow.
