

2012 TITAN

INNOVATION THAT'S TOUGH.

Ready for some big time capability? It's here in the Nissan Titan.[®] Put your foot down and the largest standard engine in its class hits the road with up to 9500 lbs (4309 kg) of towing capacity.^{1,2} Underneath, a fully boxed ladder frame handles just about any job on the list. In the bed and inside, you've got first-in-class innovation¹ plus plenty of room. Proving strong and smart can be generous, too. Innovation that's tough. Innovation for all.

Nissan Titan SL Crew Cab 4x4 shown in Galaxy. Standard splash guards not shown.

¹Ward's Light Vehicle Market Segmentation. MY12 Titan vs. 2011 Large Pickup Class. ²See Nissan Towing Guide and Owner's Manual for proper use.

317_{HP}

385_{LB-FT OF TORQUE}

9500_{LBS. (4309 KG) MAXIMUM TOWING¹}

IT STARTS WITH THE ENDURANCE V8.

Reel in the big ones with the biggest standard truck engine in its class: a massive 5.6-litre V8.² Punch the pedal and the exhaust system growls, while 385 lb-ft of torque kicks in to get the job done. Because this is one place where you don't want to hear about the one that got away.

Nissan Titan SV King Cab 4x2 shown in Airstream. Standard splash guards not shown.

OWN THE OFF-ROAD.

E-locker. When 4-Wheel Drive LO isn't enough for the crawl you've got planned, the PRO-4X's electronic locking rear differential is ready and extremely able. Flip the switch and this ultimate off-road feature delivers equal power to both rear wheels to boost traction and keep your truck moving forward.

4-Wheel Active Brake Limited Slip (ABLS). Keep your wheels from spinning. All Titans include ABLS, a system that senses when a wheel begins to slip, then automatically brakes the slipping wheel (or wheels) and sends additional power to the wheels with the best traction. (2-wheel ABLS standard on 4x2 models.)

Vehicle Dynamic Control (VDC). When you're on-road – and paths are better defined – traction and control are key. VDC monitors the truck's dynamic response and helps compensate for oversteer or understeer to help keep you on your steered path.³

PRO-4X
OFF ROAD

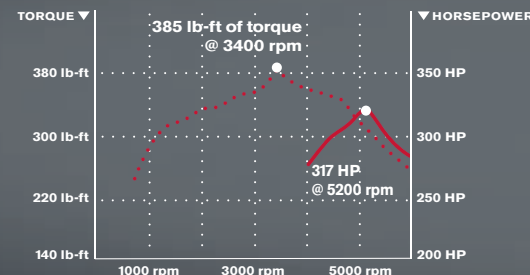

For those who like to live off-off-off the beaten path, the only choice is Titan PRO-4X. With extras like electronic locking rear differential, Rancho® off-road shocks, additional underbody skid plates – not to mention unique white-faced gauges – it's got the gear, the guts, the technology to handle it in places where success is measured in feet per minute.

Nissan Titan PRO-4X King Cab 4x4 shown in Matador Red. Standard extendable tow mirrors and splash guards not shown.

What's power without torque? Especially the brute force of low-rev torque, i.e., 80% under 1000 rpm and 90% under 2500 rpm. Feel confident – Titan's got it.

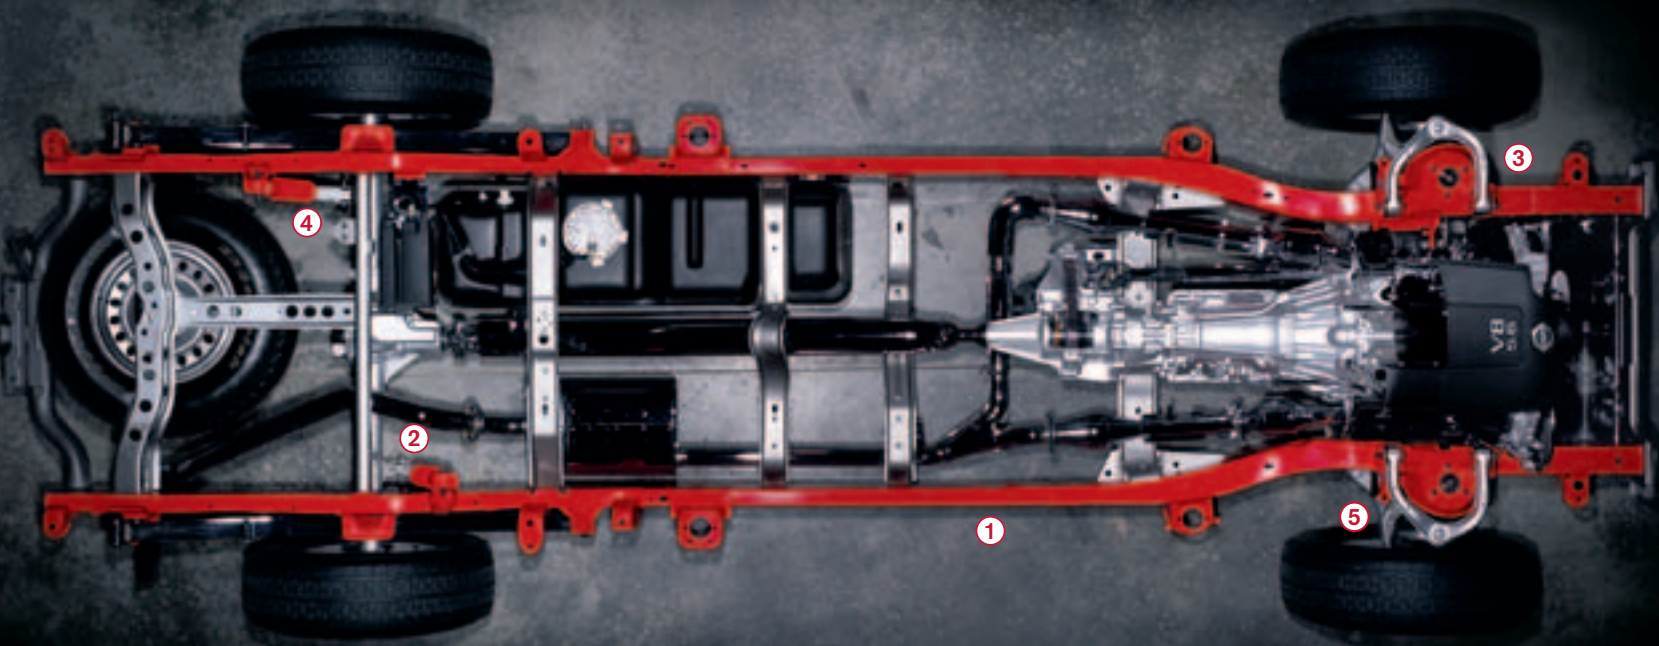

Give yourself an efficiency boost. The Nissan Titan features a high-flow intake that maximizes every heaping gulp of air. Molybdenum-coated pistons and microfinished valves cut friction, ramp up smoothness and let revs rise faster.

Tow to the max. For that full 9500-lb. (4309 kg) pull, the SV King Cab 4x2 boasts a lower final gear ratio, plus features like extendable tow mirrors and a heavy-duty battery.

¹9500 lbs. maximum towing on Titan SV King Cab 4x2. See Nissan Towing Guide and Owner's Manual for proper use. ²Ward's Light Vehicle Market Segmentation. MY12 Titan vs. 2011 Large Pickup Class. ³VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. Always drive safely.

GET HARD-CORE.

At its core, every Titan stocks a fully boxed ladder frame, plus components built for no-nonsense performance.

1 To build a better truck, sometimes you need to think inside the box. As in the fully boxed full-length ladder frame that's at the core of every Titan. Some of our competitors use 3-sided open "C" rails instead. But you don't need to be a structural engineer to know the obvious – when building, 4 walls are stronger than 3.

Titan's Boxed Frame

Conventional C-rail

2 Dana® axles are built for durability. Wherever there's a drive wheel, there's a Dana axle.

3 Heavy-duty suspension gives a smooth ride and firm, responsive handling. Double-wishbone up front, and dual-rate leaf springs in the rear.

4 Rancho® shocks Exclusive to PRO-4X, they set the standard for off-road toughness. Just like Titan.

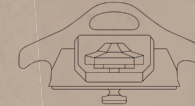

5 Oversize brakes provide maximum contact area for rapid heat dissipation, long-lasting durability and confident towing performance.

HAUL SMART.

It's a lesson in ingenuity – except we did all the homework for you. The hard-working Titan bed is dedicated to one mission: carrying cargo better. Climb in and explore. You'll find that innovative features are already built in.

The Utili-track™ system will change the way you load cargo, forever. An available system of 5 channels – three in the walls, two in the floor – run the length of the bed. The result: incredible versatility to find the right place to secure whatever you bring along.

Aluminum-alloy cleats are big and beefy, ready to grip. Slide them anywhere along the channels, ratchet them down by screwing in the lockdowns, then strap in even the most awkward load using the built-in tie-down loops. Situation handled with ease.

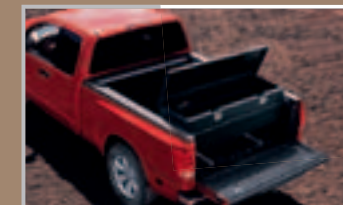

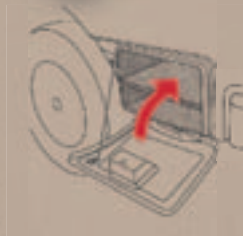

Up to one ton (961 kg) payload, a.k.a., a lot of gravel, sod, boxes, concrete, supplies, whatever.

Spray-on bedliner The spray-on bedliner helps resist the wear and tear of constant use, plus its UV-resistant surface helps guard against fading and the weather. And because it's sprayed on directly at the factory, it also fights warping and rust.

Bedside storage Another perk you'll only find on Titan: an available lockable driver-side tool box. Climate-resistant, dual-level, undeniably smart.

12-volt outlet Power a utility light (or anything else) with the available 12-volt outlet inside the bed's wall.

To get the most out of the Utili-track™ system, Nissan offers a full line of accessories, including bed dividers, bed extenders and tool boxes designed to slide along the Utili-track™ channels. For more information, log on to accessories.nissan.ca or ask your Nissan dealer.

LIVE BIG.

Here, you'll find more of what you buy a Crew Cab for. And that's space. As in, more front and rear leg room than Chevy Silverado or Dodge Ram.¹ Even beyond all the space, Titan gives you access to features that move your big life forward, from heated front seats² to a Memory System² that locks in the ideal settings for your driver's seat, outside mirrors and power pedals. Back it all up with the safety of 6 standard airbags and Titan makes a big, bold, comfortable statement, wherever you go.³

Rear Sonar System assists you while parking or backing up.^{2,4}

Bluetooth[®] Hands-Free Phone System lets you make and take calls with your hands on the wheel.^{2,5}

Seek new destinations with a GPS-based Nissan Navigation System.^{2,6}

10-speaker Rockford Fosgate-powered audio system, including XM[®] Satellite Radio, makes your tunes sound their best.^{2,7}

Plug your iPod[®] or other MP3 player into the auxiliary audio input or play your own MP3-encoded CDs in the 6-CD changer.^{2,8}

Play movies on the go with the Nissan DVD Entertainment System.²

Nissan Titan PRO-4X Crew Cab 4x4 shown in Charcoal Leather with PRO-4X Option Package. U.S. instrumentation shown.

Nissan Titan SL Crew Cab 4x4 shown in Charcoal Leather with Nissan Navigation Package. U.S. instrumentation shown.

The Nissan Safety Shield. Over 50 standard safety features, including 6 standard airbags and front-seat Active Head Restraints. All with one goal in mind: to help you and your loved ones be safe.

6 Standard Airbags. Start with dual-stage supplemental front airbags including an occupant-classification sensor. If the front-passenger seat is empty, for example, the sensor deactivates that airbag. Built into the front seats are seat-mounted side-impact supplemental airbags. They even move with you when you adjust your preferred seating position. Up above are roof-mounted curtain supplemental airbags for both rows. They work to help provide enhanced head protection for outboard occupants.³

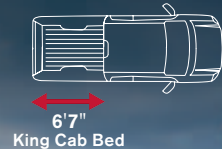

Ready with a rollover sensor. In the unlikely event of a rollover, Titan has already thought ahead. Every Titan has a sensor that detects an impending rollover, then deploys the curtain airbags to help protect you.

¹2012 Nissan Titan Crew Cab vs. 2011 Chevy Silverado Crew Cab and Dodge Ram 1500 Crew Cab. ²Available feature. See Specifications section for details. ³Please keep in mind that airbags are a supplemental restraint system and must always be used in conjunction with a seat belt. Even with the occupant-classification sensor, a rear-facing child restraint should not be placed in the front-passenger's seat. Also, in addition to any other requirement of applicable law, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Airbags will only inflate in certain accidents; see your Owner's Manual for details. Inflated airbags shown for illustration purposes only. Actual airbags deflate after deployment. ⁴The optional Rear Sonar System is a convenience, but is not a substitute for proper backing procedures. Always turn and check that it is safe to do so before backing up. The Rear Sonar System may not detect every object behind you. ⁵Availability of specific features is dependent upon the phone's Bluetooth[®] support. Please refer to your phone Owner's Manual for details. The Bluetooth word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Nissan is under licence. ⁶Factory-installed option. Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. See Specifications section for availability. ⁷XM[®] Satellite Radio is available in the 10 Canadian provinces and the 48 contiguous United States. Do not operate any devices connected to the auxiliary audio input jack while driving. ©iPod is a registered trademark of Apple, Inc. All rights reserved. iPod not included.

GO WIDE – KING CAB.

The Wide Open rear doors on Titan King Cab make entering or loading the cabin a snap. Other trucks out there may have imitated their design, but Nissan was the first to perfect the Wide Open door. And with no B-pillar to get in the way, plus a fold-up rear bench seat, your cargo flexibility is as wide open as your doors.

- Two available seating configurations:
6-passenger with front bench seat or 5-passenger with front captain's chairs
- Standard rear fold-up bench seat and a flat loading floor for more usable area
- Over 6 and one-half feet of bed length:

Nissan Titan SV King Cab 4x2 shown in Smoke. Standard extendable tow mirrors and splash guards not shown.

GO LONG – CREW CAB.

As in the longest Crew Cab bed in its class.¹ Plenty of room for whatever you need to bring along – work or play. While inside the massive cabin, you'll find more head room than Toyota Tundra, more front leg room than Chevy Silverado and bigger overall passenger volume vs. Dodge Ram Crew Cab.²

- 5-passenger seating with front captain's chairs
- Huge interior with 3557 L (126 cu. ft.) of passenger room
- Two available bed lengths:

Nissan Titan SV Crew Cab 4x4 shown in Airstream.

TITAN TRIM LEVELS

Titan King Cab

S 4x2

Features 317 HP 5.6-litre DOHC V8, 5-speed automatic transmission, 4-wheel disc brakes with ABS, 18" aluminum-alloy wheels, Wide Open rear doors, body-colour front bumper and black grille, cruise control, air conditioning, tilt steering wheel, 6-passenger capacity, front bench seat with fold-down centre console armrest, 60/40 split flip-up rear bench seat, spray-on bedliner, AM/FM/CD audio system, 6 standard airbags, Vehicle Dynamic Control (VDC), and Tire Pressure Monitoring System.³ **Crew Cab adds:** 4x4 drivetrain, 4-wheel Active Brake Limited Slip (ABLS), power front and rear windows, power back window, rear privacy glass and carpeted flooring.

SV 4x2 and 4x4

Includes S model's equipment, plus: Rear Sonar System;⁴ upgraded tires, chrome grille and bumpers, heavy-duty battery, hitch receiver, tow hooks, Utili-track™ Channel System, lockable bedside storage, tailgate illumination, bed-mounted 12-volt DC power outlet, power heated outside tow mirrors, centre console with gated shifter, 8-way power driver's seat, fold-down front-passenger's seat, leather-wrapped steering wheel, AM/FM/CD audio system with in-dash 6-CD changer, power door locks and windows, and remote keyless entry. **Crew Cab adds:** 4x4 drivetrain and power rear window with defroster.

PRO-4X 4x4

Includes SV model's equipment, plus: Locking rear differential, 18" aluminum-alloy off-road wheels with P275/70R18 tires, Rancho® off-road performance shocks, skid plates (transfer case and lower radiator), body-colour bumpers and grille, automatic on/off headlights, fog lights, 350-watt premium Rockford Fosgate audio system, Bluetooth® Hands-Free Phone System;⁵ unique interior trim and gauges, and available embroidered seats.

SL 4x4

Includes SV model's equipment, plus: 20" chrome-clad alloy wheels, automatic on/off headlights, fog lights, chrome running boards, 350-watt premium Rockford Fosgate audio system, Dual-zone Automatic Climate Control, 4-way power front-passenger's seat, leather seating surfaces, heated front seats, Memory System (driver's seat, outside mirrors and pedals), Bluetooth® Hands-Free Phone System;⁵ and wood accents. **Crew Cab adds:** power tilt and slide moonroof.

Finance Options Through Nissan Canada Finance, we offer many attractive purchase and lease programs, all with competitive rates and terms. With our flexible finance options, driving home a new Nissan has never been easier. Consult your local Nissan Dealership for complete details.

No-Nonsense Warranty Every 2012 Nissan is covered by a 3 year/60,000 km³ Comprehensive New Vehicle Warranty, a 5 year/100,000 km³ Powertrain Warranty, an 8 year/130,000 km³ Emission Control Warranty on selected components, and a 5 year/unlimited km Corrosion Perforation Warranty. As a Nissan owner, you'll also receive a 3 year Roadside Assistance program available to you 24 hours a day. Terms, conditions and exclusions apply. See Warranty Information Booklet for complete details.

Added Security Plan (ASP) For ultimate peace of mind, consider the Nissan Added Security Plan. It's our commitment to be there for you, and to help you leave your worries behind. Different plans, available for both purchased and leased vehicles, let you tailor the coverage to your driving habits.

Nissan's philosophy toward the environment, "Seeking a symbiosis of people, vehicles and nature," describes our ideal for a sustainable mobile society, now and in the future. We launched the Nissan Green Program with specific objectives to realize this goal, and we are pursuing it energetically.

NISSAN
GREEN PROGRAM

INNOVATION THAT'S TOUGH. INNOVATION FOR ALL. NISSAN TITAN®

At Nissan, innovation is at the core of everything we do. It's about turning our ideas and dreams into something that makes a difference in your life, every time you get behind the wheel. So imagine driving a Titan, with all of this to back you up:

Muscle to go. The largest standard engine in its class¹; this 5.6-litre V8 gives you up to 9500 lbs (4309 kg) of towing capacity².

Easy access. Nissan was the first to perfect the Wide Open rear door design you find on King Cab. It makes getting in or loading up a snap.

A revolutionary bed. Titan's available Utili-track™ system changed truck beds forever. And gives you a whole new way to lock down your cargo.

Off-road smarts. With the available electronic locking rear differential, Titan offers advanced off-road tech you don't find in many full-size trucks.
