Peace of mind, standard with every GMC model

When you build them with quality, you can back them with confidence. Program highlights include:

- 3-year/60,000 km New-Vehicle Limited Warranty 1
- 5-year/160,000 km Powertrain Component Limited Warranty, with $0 deductible on repairs and the warranty is fully transferable at no charge 1
- 5-year/160,000 km Courtesy Transportation 1
- 5-year/160,000 km 24/7 Roadside Assistance 1
- 6-year/160,000 km rust-through perforation coverage 1
- 8-year/130,000 km coverage on catalytic converters and Powertrain Control Modules (PCMs) 1

Other owner privileges and programs:

- GM Protection Plan (GMPP) — The only extended service plan backed by the resources and commitment of General Motors, GMPP may be purchased at the time of sale or subsequently during the New-Vehicle Limited Warranty period.
- GM Goodwrench Service — With GM-certified technicians and GM-approved parts, nobody knows your GM vehicle better.
- GMC Owner Centre — As an owner, take advantage of the GMC Owner Centre. This online owner’s destination gives you access to coupons, contests, current offers and the latest driving and maintenance tips. Find out more at gmcowner.ca.

To help you purchase or lease a new vehicle:

- Purchase Financing and Leasing — On-the-spot financing, see dealer for full details. 3
- GM Student Bonus Program — Students or recent graduates of high school, college or university 2 may be entitled to receive a Student Bonus vehicle redemption allowance of $500 or $750 4 (tax inclusive) (purchased vehicle dependant) to use toward the purchase, lease or finance of one eligible new GMC vehicle.
- The GM Card — GM cardholders may redeem up to $3500 GM Card® Earnings (subject to Vehicle Redemption Allowances) toward the Total Purchase Price on eligible new GM vehicles. 4 For full program details, please visit thegmcard.ca.

You can find more information about these programs from your GMC dealer, or at these information centres:

- The GM Web site at gm.ca
- The GM Customer Care Centre at 1-800-GM-DRIVE (1-800-463-7483 or 1-800-263-3830 for TDD users)

A word about this brochure:

Some of the equipment shown or described throughout this brochure may be available at extra cost. We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colours, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this brochure and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been adapted since the time of printing, please check with your GMC dealer for complete details. General Motors of Canada Limited reserves the right to lengthen or shorten the model year for any product, for any reason, or to start and end model years at different times.

A word about assembly:

GMC vehicles are equipped with engines and components produced and assembled by different operating units of General Motors, its subsidiaries and suppliers to GM worldwide. We sometimes find it necessary to produce GMC vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

VEHICLE SPECIFICATIONS

In 2013, GMC introduced the Acadia for the 2014 model year. Thanks to the new model’s design, the Acadia provides a higher level of luxury, style and functionality than ever before. GMC’s signature design language is evident throughout the vehicle, from the aggressive front grille to the sleek, aerodynamic profile. The Acadia’s interior is equally impressive, featuring a comfortable and functional layout with advanced technology and safety features. The Acadia’s exterior design is characterized by its imposing presence and attention to detail in every aspect. The Acadia’s performance is also impressive, offering a choice of engine options to meet the needs of every driver. Overall, the new 2014 Acadia is the perfect blend of style, functionality and safety, making it a top choice for crossover SUV buyers.
GMC engineers crafted the Acadia cabin to be remarkably spacious, quiet and comfortable. Choose Denali, a level of design and craftsmanship that is the pinnacle of GMC engineering, and elevate yourself further. Acadia Denali combines premium materials, distinctive style and advanced technologies like new standard Forward Collision Alert and Lane Departure Warning to help you avoid mishaps. Refinements include perforated leather appointments on the first- and second-row seats and the precise detailing of contrasting French seam stitching.
IT SHOUTS PREMIUM, USING ITS INSIDE VOICE. Acadia Denali surrounds you with real premium materials, a soft-touch instrument panel and countless features designed to make your travels pleasurable. You and your companions can spread out and make yourselves comfortable, relaxed and at ease.

FRENCH SEAM STITCHING In Acadia Denali, refinements are found in the supple touch of perforated leather appointed to the front and rear seat backs, as well as the alluring appearance of French seam stitching.

PREMIUM MATERIALS Denali’s standard perforated leather-appointed first- and second-row seats feature French seam stitching. You’ll also find it on the supple, perforated leather-appointed appointments of the instrument panel.

BOSE® SOUND SYSTEM For your listening pleasure, the Bose sound system in Denali features 10 speakers in the cabin. Available digital 5.1 surround technology unlocks the benefits of digital recordings for a full, detailed sound.

IN HERE, PERFORMANCE IS MEASURED IN BRAINPOWER.

From new driver alert technologies to available navigation systems, Acadia Denali never stops thinking.
Heighten your confidence with Forward Collision Alert and Lane Departure Warning, pg. 20.

Personalize your entertainment with voice-activated IntelliLink, pg. 9.
ACADIA SLT INTERIOR IN EBONY shown with available equipment.

Keep information in sight with the Driver Information Centre, pg. 16.
PULL UP A SEAT–EIGHT OF THEM. Acadia is offered with a second-row bench seat to accommodate up to eight adults, or choose your second row with a pair of captain’s chairs for seven-passenger seating.
DRIVER TECHNOLOGIES

ALERT, INFORMED, ENTERTAINED. Acadia is all about keeping you in tune with your surroundings—both inside as well as out—using the latest mobile technologies. The more you know, the better your driving experience. That’s why information is ergonomically positioned to optimize driving awareness and minimize distractions, including Head-Up Display, standard on Denali.

Over 120 channels to go with SiriusXM Radio, pg. 18.

Take your music player wherever you go with USB connectivity, pg. 19.
INTELLILINK\(^1\) Available with Colour Touch Radio and included with Colour Touch Navigation.\(^2\) IntelliLink provides smartphone integration and voice-activated control of your communication and entertainment selections, including placing a telephone call, changing the station, streaming Internet radio station Stitcher\(^3\) SmartRadio through your smartphone or accessing your iPod\(^6\) music library.

HEAD-UP DISPLAY This available cockpit-inspired gauge readout (standard on Denali) projects important driving information directly onto the windshield, tracking speed, engine rpm, outside air temperature and more.

TOUCH-SCREEN NAVIGATION\(^2\) The available Touch-Screen Navigation System offers advanced mapping capabilities in 2-D or 3-D view and includes 3 months of XM NavTraffic,\(^3\) giving you construction, road closure and accident reports in real time.

REAR VISION CAMERA The touch-screen display is also a monitor for the Rear Vision Camera. It provides a wide view behind the vehicle when backing up.

\(^1\)IntelliLink functionality varies by model. Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices. IntelliLink on Acadia does not include Gracenote\(^6\) functionality. Visit intellilink.gmc.gm.ca for more details.  
\(^2\)At time of printing, detailed map coverage is available for most major urban areas of the United States and for certain metropolitan areas of Canada (Vancouver, Calgary, Edmonton, Winnipeg, Windsor, London, Toronto, Ottawa, Montreal, Quebec City and Halifax). Coverage is significantly limited outside these areas.  
\(^3\)Available in 10 Canadian provinces and the 48 contiguous United States. Subscription sold separately after trial period. Visit siriusxm.ca for details.
EXTERIOR

THE HEIGHT OF STYLE. It’s a level of design and craftsmanship uncommon in today’s vehicle landscape. Acadia Denali’s attention to every detail is easy to see whenever you look. Its distinctive style is a product of smooth, flowing lines running uninterrupted from the front to the rear, culminating in a crossover that’s every inch a Denali.

PROJECTOR HEADLAMS

High-Intensity Discharge (HID) projector headlamps and LED daytime running lamps increase visibility, giving Acadia Denali a jewel-like necklace of illumination.

DUAL FLOW-THROUGH EXHAUST

Thoroughly integrated into the corners of the rear bumper of Acadia Denali is a pair of chrome outlets for a dual flow-through design.

DENA LI GRILLE

The distinctive honeycomb pattern of its 3-D chrome grille is a signature detail unique to the Denali series, GMC's top-of-the-line models.
EXTERIOR
SCULPTED TO PERFORM.

Acadia’s sculpted surfaces are where form meets function. No matter which model you choose, Acadia combines design, power and versatility to help you achieve more. Add the Denali name and you enhance the level of style and craftsmanship. Acadia Denali combines premium materials, distinctive styling and advanced technologies to make it the premier choice among crossovers.

FEA TURES & BENEFITS
PROFESSIONAL GRADE: A USER’S GUIDE.

Every one of Acadia’s components is engineered to a level of excellence we call Professional Grade. The result is uncompromising comfort, highly capable performance and innovation at every turn. What follows are detailed insights into how these features span the entire vehicle to create a premium driving experience.
FORM MERGES SEAMLESSLY WITH FUNCTION. At GMC, our designers crafted the high-roof, five-door design of Acadia with a clear understanding of your functional requirements—the low height of the rear bumper makes loading easier, while the low step-in door height allows people to enter without climbing steps. Once they created a design that embodies spacious comfort, a smooth ride and flexible seating and cargo configurations, then came the exquisite details—from the jewel-like headlamps to the dazzling chrome accents.

**SHORT AND SLIP-RESISTANT HANLES** The distinctive exterior design of Acadia is apparent at a glance with the wrap-around rear glass. The seamless one-piece glass design provides a clear, uninterrupted look on the outside.

**HEATED POWER-RETRACTABLE MIRRORS** Heated to help remove snow, frost and fogging, these available power mirrors offer excellent visibility and extra clearance. On SLE models, they have a satin chrome finish and black L-motion mirror covers. SLT-1 mirrors are body color and manual folding. In SLE-2 and Denali models, they are retracted electrically by the body and power fold. Shown with available Side Blind Zone Alert.

**LED TAILLAMPS** To help Acadia stand apart, enhanced dynamic styling with LED technology provides better energy efficiency than traditional lights.

**WRAP-AROUND REAR GLASS** The distinctive exterior design of Acadia is apparent at a glance with the wrap-around rear glass. The seamless one-piece glass design provides a clear, uninterrupted look on the outside.

**ACADIA SLT IN CRYSTAL RED TINT COAT** Shown with available equipment.

**Rear Park Assist**, pg. 19.

**Get a helping hand with the remote power liftgate**, pg. 17.

**Features & Benefits**
**INTERIOR FEATURES**

**ITS TRUE BEAUTY LIES IN ITS VERSATILITY.** We know your expectations are high when it comes to the quality and flexibility of your interior space. That’s why Acadia is designed to surround you with premium materials and configurations that elevate your driving experience. Then, with an extensive list of convenience features, Acadia makes it easy to achieve even more.

**SEATING CONFIGURATIONS** Choose eight-passenger seating and get a sliding second-row bench seat that fits three adults comfortably. Select the available seven-passenger configuration and the second row has two captain’s chairs.

**DRIVER INFORMATION CENTRE** Staying in touch with the most important information is as easy as pressing a button. The Driver Information Centre includes the odometer and A/B trip odometers, as well as a message centre that keeps you informed about vital vehicle functions and driving conditions.

**SMART SLIDE SEATING** Making third-row entry and exit easier, Acadia has Smart Slide second-row seats that slide forward with just one hand. The seats fold up for space like a beach chair.

**NOISE SUPPRESSION** To reduce road noise and control wind noise, Acadia uses sound-blocking and -deadening materials to fill even the most minute gaps and sound paths.

**CENTRE CONSOLE** Acadia’s convenient and spacious centre console gives you multiple storage compartments for the essentials you rely on. The centre floor console offers deep, concealed storage for CDs or DVDs, MP3 players or other electronics. The padded armrest slides forward and backward to keep you comfortable in any seating position.

**HEAD-UP DISPLAY** Inspired by fighter aircraft technology, this available system projects important driving information at eye level. Speedometer and rpm readings, turn signal and high-beam indicators, transmission position, outside air temperature and, when equipped with a navigation radio, Turn-by-Turn Navigation information.¹

¹Requires OnStar Directions & Connections Plan. Visit onstar.ca for coverage map, details and system limitations. Standard for six months.

**TECHNOLOGY PACKAGE** This available grouping includes Head-Up Display, cargo area audio system controls and HID projector low-beam headlamps.

**FOLD-FLAT FUNCTIONALITY** For the impressive capacity of a full-size SUV, the second- and third-row seats fold forward to create a flat, uninterrupted load floor. This flexibility gives you up to 3286 litres² (116.1 cu. ft.) of cargo capacity.

²Cargo and load capacity limited by weight and distribution.
CUPHOLDERS  Acadia has two console-mounted cupholders and two in the doors for driver and passenger. Additional holders are in the second row, with one in each door, plus two more moulded into the third-row side panels.

SILL PLATE  Step through the driver’s or front passenger’s door of Acadia Denali and its illuminated, satin chrome sill plates let you know you’ve entered luxury.

POWER TILT AND TELESCOPING STEERING WHEEL  On Denali models, the power tilt and telescoping steering wheel moves up/down and in/out to make it easy to set the precise driving position.

STEERING-WHEEL-MOUNTED CONTROLS  Access the audio system with your fingertips while you keep your eyes on the road. This available feature controls most music search features of compatible MP3 players, as well as the hands-free phone interface.

REMOTE KEYLESS ENTRY  With one touch, lock or unlock your Acadia or flash its lights and sound the horn to help you locate it in a parking lot. At a range of up to 59 metres (195 ft.), it unlocks your doors for fast entry and quick escape from wind, rain, snow or sleet.

TRI-ZONE CLIMATE CONTROL  Acadia’s available tri-zone climate control allows the driver and front-seat passenger to set separate temperatures for personalized comfort. Shown on Denali.

REMOTE VEHICLE START  Warm up—or cool off—your Acadia for up to 10 minutes without leaving the house. This available feature is capable of starting your vehicle from up to 59 metres (195 ft.) away, so your Acadia’s interior will begin adjusting to your preset temperature. With tri-zone climate control, the system can automatically heat or cool the interior.

REAR CONTROLS  Second-row passengers get their own controls included with the available tri-zone climate control system, so they’re able to set the temperature and fan speed to their liking.

REMOTE POWER LIFTGATE  Let Acadia help you with that. The available power liftgate opens with a touch of your key fob for easier access to your Acadia’s cargo area. You can close it the same way, or use the button on the liftgate or the centre console.

DUAL PANEL SUNROOF  Front-seat passengers shouldn’t have all the fun. Acadia’s available two-panel dual sunroof lets those seated in the second and third rows feel special, too.
TECHNOLOGY

DRIVE SMARTER. With its advanced technologies, Acadia becomes an integral part of your life. At the centre is a Colour Touch Radio System that links you to a host of entertainment and information sources. Auxiliary inputs transform the enjoyment for rear-seat passengers, while driver-oriented technologies like the Rear Vision Camera and Rear Park Assist are standard on every Acadia.

COLOUR TOUCH RADIO SYSTEM This standard entertainment system uses a simple, intuitive 165 mm (6.5-in.) diagonal high-definition touch-screen Colour Interface Display to make it easy to find your most important information quickly. It includes AM/FM/CD/SiriusXM® capabilities (standard 3-month trial period), and gives you a customizable home page and a USB® and auxiliary input for your MP3 player.

INTELLILINK® Available with Colour Touch Radio and included with Colour Touch Navigation®, IntelliLink provides smartphone integration and voice-activated control of your communication and entertainment selections, including placing a telephone call, changing the station, streaming Internet radio station Stitcher℠ SmartRadio through your smartphone or accessing your iPod® music library. New for 2014, IntelliLink will convert text messages into voice messages.

COLOUR TOUCH NAVIGATION® WITH INTELLILINK® The available NAV system, which includes IntelliLink, adds more than just navigation to the screen of the standard high-definition Colour Touch Radio. Multiple map views are also at your fingertips with the touch of an icon on the home screen. With a USB® adapter, the Colour Touch Navigation System also allows a digital card reader to link with Photoviewer to review pictures from your camera or smartphone in the LCD display, as well as display album art (if available) when listening to music from your iPod.®

SIRIUSXM SATELLITE RADIO® Enjoy SiriusXM Satellite Radio with a 3-month trial subscription to the XM Premier Package. SiriusXM brings you over 120 channels, including commercial-free music, plus the best sports, news, talk, comedy and entertainment. Welcome to the world of SiriusXM.

MP3 PLAYBACK CAPABILITY Bring the music and entertainment you love to your Acadia just by plugging your playback cable into the auxiliary input jack on your radio. Accommodates most MP3 players and devices, including many smartphones.
USB CONNECTIVITY Plug into the USB port\(^9\) and control most of your iPod\(^9\) or MP3 music player’s functions, including playlists and song selection, from available steering-wheel-mounted radio controls. For 2014, all Acadia models feature dual-charge-only USB ports on the back of the centre console.\(^*\)

\(^9\)Not compatible with all devices.

10-SPEAKER BOSE\(^\circ\) AUDIO SYSTEM The available Bose systems are engineered to give you the realism and presence of a live performance. Standard on SLT and Denali models, the premium 10-speaker Bose sound system with subwoofer offers incredible detail and richness.

IN-CONSOLE POWER PORT For secure and concealed charging of your portable electronic devices, Acadia includes a 12-volt DC power outlet in the storage well of your centre console. It lets you quickly recharge small portable devices such as phones, camera batteries or MP3 players.

BLUETOOTH\(^\circ\) FOR PHONE Extend your capabilities just by activating the Bluetooth feature on your phone or portable device. It will then work through many of the controls and features already installed in your Acadia, including hands-free operation and dialing.\(^*\)

\(^*\)Not compatible with all devices.

115-VOLT AC POWER OUTLET Acadia helps you stay energized with an available 150-watt/115-volt AC household-current grounded power outlet with the Rear-Seat Entertainment System to keep your phone, laptop or music player powered up. It can also power portable televisions, video players or game systems and most inflators for sporting goods.

REAR-SEAT ENTERTAINMENT SYSTEM This available system offers video gaming and DVD playback for rear-seat passengers. It includes a rear-seat DVD player with remote, overhead display, two sets of wireless infrared headphones (batteries included) and more.

REAR VISION CAMERA Make it easier to back up to a trailer or negotiate a tight space. This standard system displays a real-time video feed from the rear-mounted camera onto the Colour Touch Radio screen when Acadia is in reverse.

REAR PARK ASSIST This standard system sends out ultrasonic waves from sensors in the rear bumper that function like radar to alert you to certain objects when backing up at slow speeds. The closer you are, the faster it beeps to help you avoid an impact.

UNIVERSAL HOME REMOTE Open your garage without leaving the driver’s seat. This available remote can be easily programmed to operate the majority of garage-door openers. It operates from the Acadia’s electrical system, so it will never need batteries.
SAFETY FEATURES

INDUSTRY FIRST. AND EXCLUSIVE. The industry-first and GM-exclusive front centre air bag1 is designed to help protect you in a collision. Acadia offers a reassuring level of safety features—including the available front centre air bag, Forward Collision Alert and Lane Departure Warning, as well as sensor-based technologies like StabiliTrak, a stability control system. And for 2014, Acadia received a 5-Star Overall Vehicle Score2 for safety.

1Air bag inflation can cause severe injury or death to anyone too close to the air bag when it deploys. Be sure every occupant is properly restrained. Always use safety belts and the correct child restraint for your child’s age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See your Owner’s Manual and child safety seat instructions for more safety information. *U.S. Government 5-Star Safety Ratings are part of the National Highway Traffic Safety Administration’s (NHTSA’s) New Car Assessment Program (safercar.gov).

REAR CROSS TRAFFIC ALERT Monitoring your surroundings and working with the Rear Vision Camera, it sends audio and visual warnings, alerting you to cross traffic while backing up. (Standard on SLT-2 and Denali models.)

DRIVER ALERT SYSTEMS These systems are standard on Denali and available on SLT models. Using sophisticated digital imaging technology, Forward Collision Alert produces audible and visual signals if you are rapidly approaching another vehicle and a collision may be imminent. Lane Departure Warning alerts you if you wander from your lane without using your turn signal.

LED DAYTIME RUNNING LAMPS By running the LED lamps in daytime, you gain recognition by other drivers from a greater distance, giving you an extra measure of security.

LATCH CHILD SEAT ANCHORING SYSTEM Lower Anchors and Top tethers for CHILDren (or LATCH) means a LATCH-equipped child seat installs to specially designed retainer hooks in your Acadia. It also enables a child seat top tether strap to be attached to help limit movement in a forward crash, helping reduce the chance of injury.

THEFT DETERRENT SYSTEM A tiny chip found in your ignition key prevents unauthorized starting attempts in your Acadia. It functions as an electronic “fingerprint” that disables your starting system if it detects a theft attempt.

REINFORCED STEEL SAFETY CAGE DESIGN Acadia’s robust body-frame-integral structure is engineered to help maintain the integrity of the passenger compartment in the event of a collision.

FRONT CENTRE AIR BAG3 The available front centre air bag is designed to help protect drivers and front-seat passengers in far-side crashes where the affected occupant is on the opposite, non-struck side of the vehicle.

SIDE IMPACT AIR BAGS2 Helping protect the thorax and pelvic regions of the driver and front passenger in a side-impact collision are standard side-impact air bags mounted on the driver and front passenger seats.

SIDE BLIND ZONE ALERT Available radar-equipped sensors monitor Acadia’s blind spots, alerting the driver via audio and visual warnings to help reduce the risk of collisions.4 It’s standard on SLT-2 and Denali models.

Air bag inflation can cause severe injury or death to anyone too close to the air bag when it deploys. Be sure every occupant is properly restrained. Always use safety belts and the correct child restraint for your child’s age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See your Owner’s Manual and child safety seat instructions for more safety information. *Before making a lane change, always check the Side Blind Zone Alert display check the interior and exterior rearview mirrors, look over your shoulder for vehicles and hazards and start the turn signal.

HEAD CURTAIN SIDE-ImpACT AIR BAGS5 These air bags unfurl from the roof rail like a protective curtain for outboard passengers and can be activated by either rollover or side-impact sensors.

STABILITRAK STABILITY CONTROL SYSTEM To help you stay in control when the road surface is loose, snowy, icy, wet or uneven, StabiliTrak uses a network of vehicle sensors to monitor how your Acadia is responding to your steering and braking commands. If the system determines your vehicle is not responding properly, it can pulse the brakes or reduce engine power to help you stay on the path being steered.
HELP IS A BLUE BUTTON AWAY. OnStar, standard for 6 months, lets you speak to a live OnStar Advisor just by pressing the blue button on your rearview mirror. OnStar Advisors can guide you anywhere or suggest nearby points of interest. If you have the Navigation System installed, directions can be downloaded directly to your navigation screen.

DIRECTIONS & CONNECTIONS PLAN Putting information at your fingertips while on the go, all Acadia models feature a 6-month trial subscription to the OnStar Directions & Connections Plan, standard.

SAFETY

ROADSIDE ASSISTANCE If the unexpected happens on the road—your vehicle is stranded, out of gas or you have a flat tire—one push of the OnStar button can immediately connect you to an Advisor, ready to help you at any hour of the day or night. OnStar can use GPS technology to pinpoint your location and connect you to a service provider. No guessing about where you are or what to do.

AUTOMATIC CRASH RESPONSE If your Acadia is in a crash, built-in sensors can automatically send an alert to OnStar. An OnStar Advisor is immediately connected to your vehicle to help you. Even if you aren’t capable of responding, the Advisor can use GPS technology to locate you and request that emergency help be sent right away.

CRISIS ASSIST During severe weather or other natural disasters, OnStar can offer assistance and help you navigate your way to safety. Just push the red OnStar emergency button and a specially trained Crisis Assist Team moves quickly to help. OnStar can pinpoint your location and provide up-to-date information from public safety authorities, request that help be sent to you or even contact family members.

EMERGENCY SERVICES If someone in your Acadia needs emergency help, the OnStar emergency button gives you a priority connection to a trained Advisor at any time, day or night. OnStar uses GPS technology to pinpoint your location and request police, fire or medical support be sent right away. The Advisor can also stay with you on the line until help arrives.

REMOTE DOOR UNLOCK It’s happened to everyone. But there is an easy solution. If you get locked out of your Acadia, OnStar can help. After verifying your account, an OnStar Advisor can send a signal to your Acadia that usually unlocks the doors within minutes.

REMOTE HORN AND LIGHTS Say you’re in a large parking area, and you just can’t remember where you parked. Just call the toll-free number and OnStar can send a remote signal to flash your lights and sound your horn to help locate your Acadia.

STOLEN VEHICLE ASSISTANCE If your Acadia is ever stolen, OnStar can help locate it after verification with law enforcement. OnStar uses built-in GPS technology to help locate it, prevent it from restarting with Remote Ignition Block or, if the vehicle is in use, engage the Stolen Vehicle Slowdown technology to help police recover it quickly and safely.

CONNECTS HANDS-FREE CALLING WITH VOICE-ACTIVATED DIALING Available OnStar Hands-Free Calling is built into your Acadia. Just push a button, call out the number and you’re free to keep your eyes on the road.

TURN-BY-TURN NAVIGATION Drive with more confidence and certainty. OnStar Turn-By-Turn Navigation is built into your Acadia. Push one button and ask the OnStar Advisor to download directions to your Acadia. Turn-By-Turn is also smart, because an automated voice calls out every turn as you need it.

ONSTAR NAV WITH MAPQUEST.COM Get a head start on a trip by checking out your destination on mapquest.com. With OnStar eNav, just click the “Send” link on the Web site, and it will be sent to your vehicle. When you’re ready to head out, directions will be downloaded to your vehicle based on your location, with nothing to type on the screen and no maps to hold.

DESTINATION DOWNLOAD On vehicles equipped with the optional Navigation System, simply press your blue OnStar button, and a trained Advisor will download your directions to your Acadia’s navigation screen. Destinations can be downloaded on the go—no need to pull over to enter new addresses. It makes screen-based navigation systems easier and faster to use.

ONSTAR REMOTELINK APP The OnStar RemoteLink app offers control and connection with your Acadia. After downloading and registering the app, GMC owners with an eligible vehicle can use their iPhone Android or BlackBerry mobile devices to control their vehicle from their phone and perform specific commands—like unlocking their doors—remotely. You can lock/unlock your doors from any distance, start your vehicle remotely, sound your horn and flash your lights to help locate your vehicle or contact an OnStar Advisor, Roadside Assistance or your preferred dealer. To learn all about all the great features available, go to onstar.ca.

Features vary by model and conditions.

Visit onstar.ca for coverage map, details and system limitations. Services vary by model and conditions. OnStar acts as a link to existing emergency service providers. Not all vehicles may transmit all crash data. After complimentary trial period, an active OnStar service plan is required.

Features vary by model and conditions.

Visit onstar.ca for coverage map, details and system limitations. Services vary by device, vehicle and conditions. Requires active OnStar service plan. Not available on SLE-1.
HORSES THAT REQUIRE LESS, DELIVER MORE. Acadia’s technologically advanced engine and transmission are at the heart of its Professional Grade capabilities. With 288 horsepower, 270 lb.-ft. of torque and a highway fuel efficiency of 8.4L/100 km, its 3.6L V6 engine is the perfect expression of what GMC engineering is all about—powerful yet efficient performance.

**3.6L V6 VVT (LLT)** Engineered for responsiveness at all speeds, the 3.6L V6 VVT is the ideal blend of power and efficiency. With a high-performance direct-injected 24-valve, dual-overhead cam design, the 3.6L V6 accelerates smoothly and quickly for confident highway passing and merging. Yet its efficiency gives it surprising highway fuel consumption of 8.4L/100 km.

**VARIABLE VALVE TIMING (VVT)** This gives you the power of a high-performance engine with the low-speed response you need for situations such as towing or climbing steep inclines. This technology constantly monitors and changes when the valves open and close to give you near-peak levels of torque across the entire range of engine speeds.

**OIL LIFE MONITOR** For long life and durability, nothing is more important than changing your oil at the right time. GMC engineered the mystery out of this essential service with the Oil Life Monitor. It calculates how much life your oil has left, based on when and how you drive. Then it updates you with a message on your Driver Information Centre.

**6-SPEED AUTOMATIC OVERDRIVE TRANSMISSION** Designed to work seamlessly with the engine and control system, this transmission chooses the best gear for fuel economy or power based on your driving style. For steep hills, bad weather or a really great driving road, all Acadia models feature tap-up/-down gear selection with Driver Shift Control. It gives you the ability to manually shift gears for optimal control.

**ONSTAR VEHICLE DIAGNOSTICS** The peace of mind that comes from knowing the condition of your Acadia’s key systems is as easy as checking your e-mail. The OnStar Vehicle Diagnostics service that comes standard with your 6-month trial subscription to OnStar can run hundreds of checks of your Acadia’s engine, transmission, antilock brakes and more, then organize the information into an easy-to-read monthly report. OnStar can also run a check of your vehicle as you drive just by pressing the blue button and asking the Advisor for an On-Demand Diagnostics check.

1 Acadia FWD models. Fuel-consumption ratings based on GM testing in accordance with approved Transport Canada test methods. Your actual fuel consumption may vary.
WHERE YOUR COMFORT MEETS CONTROL. The foundation for the premium character of Acadia is its strong chassis and sophisticated suspension design. Acadia’s smooth ride starts with its lengthy wheelbase and continues with a host of suspension features that balance ride comfort with responsive handling to create a refined driving experience.

**WIDE STANCE/LONG WHEELBASE** Acadia has the longest wheelbase in its class, which reduces vehicle movement at highway speeds. The wide track pushes the wheels out to the edge of the body for the stability and sure-footed cornering found in much smaller vehicles.

**ADVANCED DUAL-FLOW VALVING** This feature in Acadia Denali’s front suspension provides a smoother ride and improved handling across a broad range of driving conditions.

**FULLY INDEPENDENT SUSPENSION** For precise control and premium refinement, Acadia is engineered with a four-wheel independent suspension. As the name implies, each wheel can act independently to maintain road contact, which helps you stay in control. With sophisticated shock absorbers and struts filled with nitrogen gas and conventional fluid, the ride is smooth and controlled even on poorly maintained roads.

**POWER RACK-AND-PINION STEERING** For precise and accurate response, Acadia features power rack-and-pinion steering. It provides a positive on-centre feel at highway speeds, as well as low-speed assist for manoeuvring in tight spaces. On SLT and Denali models, variable assist power steering adjusts steering assist torque in relation to your speed, contributing to the accurate handling of your Acadia.

**ALL-WHEEL DRIVE (AWD)** For an extra measure of traction on many road surfaces, traction control measures and compares the speed of your wheels. If it senses one or more wheels starting to spin, such as on a slippery surface, the system applies individual brakes and manages engine power to direct torque to the wheels with the most traction available, so you can move forward with a better sense of control.

**ANTILOCK BRAKING SYSTEM (ABS)** For confident stops in a variety of conditions, every Acadia features four-channel antilock brakes. When the brakes are applied, ABS can detect impending wheel lock-up, and then pulse that wheel’s brake to prevent it. A four-channel system, it can activate any combination of vehicle brakes independently to maintain control.

**POWER FOUR-WHEEL DISC BRAKES** For outstanding braking performance in virtually any condition, power four-wheel disc brakes are standard on every model. The discs are ventilated to help shed heat and prevent brake fade, letting you brake with confidence.

**TRAILERING PACKAGE** Acadia is engineered with a maximum trailer weight rating of up to 2359 kg (5200 lbs.). When you order this available package, you get the heavy-duty cooling system, a factory-installed trailer hitch with a standard 51 mm (2-in.) receiver, attaching points for safety chains and a seven-pin trailer harness with a built-in universal adapter.

Maximum trailer weight ratings are calculated assuming a base vehicle, except for any option(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your GMC dealer for additional details.
YOUR ACADEIA IS ALMOST READY.

This is where you’ll find numerous exterior, interior, entertainment, performance and accessory selections so you can make Acadia truly your own. Build your Acadia to reflect your particular colour, premium material, accessories and feature preferences.
ACADIA SLT IN CRYSTAL RED TINTCOAT shown with available equipment.

- Cocoa Dune

*Not available with eight-passenger seating.*
FINISHING TOUCHES. GMC Accessories are engineered and tested to meet the Professional Grade standards of your Acadia. Available individually or as part of a package, they allow you to further personalize your Acadia. Your dealer can help make it happen.

1. **SIDE-WINDOW WEATHER DEFLECTORS**
Let fresh air in and keep rain, sleet and snow out with custom-moulded side-window weather deflectors. Available in Smoke.

2. **ROOF RACK CROSS RAIL PACKAGE**
Carry up to a 91 kg (200-lb.) load on the roof of your Acadia with these roof rack cross rails that add both function and style.

*Cargo and load capacity limited by weight and distribution.

3. **ASSIST STEPS**
Stylish assist steps make it easier to get into and out of your Acadia. Constructed of high-strength aluminum, these 152 mm (6-in.) chrome steps are topped with full-length black traction pads.

**DUAL-HEAD-RESTRAINT DVD SYSTEM**
Rear-seat passengers will enjoy this DVD Rear-Seat Entertainment System. Dual LCD monitors and DVD players are built into the back of the front-seat head restraints. Includes wireless headphones and a remote control for personal programming.

**PREMIUM ALL-WEATHER FLOOR MATS**
Complement your Acadia with premium all-weather floor mats. Designed to fit the floor configuration, a deep-ribbed pattern collects debris. Nibs on the back keep them in place. Available in three colours to match your interior: Ebony, Light Titanium and Dune.

**CARGO ORGANIZER**
This durable, flexible, collapsible organizer has multiple compartments, allowing you to carry lightweight items of various sizes in the rear of your Acadia. Can be folded flat or removed from the vehicle as needed. Black with GMC logo.

**HITCH BALL ASSEMBLY**
This standard-size assembly comes complete with a chrome-finish tow ball, washer and retaining nut. Designed to fit standard ball mount assemblies (sold separately).

**CARGO NET**
Enhance the efficiency of your Acadia with this black cargo net. It attaches easily to the sides of your cargo area to secure small, light items while in transit.

**ACCESSORY WHEELS**

- RV025 20" CAST-CHROME 12-SPOKE WHEEL (VZR)
- RV082 20" CAST-CHROME 12-SPOKE WHEEL (VZU)

*Use only GM-approved tire and wheel combinations. Unapproved combinations may change the vehicle’s performance characteristics. For approved tire and wheel combinations and other important information, go to gm.ca or see your dealer for details.
### 2014 GMC Acadia

**Engineering and Design**

GM has been dedicated to the highest standards of design and engineering—creating precision-crafted vehicles that exceed expectations. That's why the 2014 Acadia is the crossover engineered to handle life's demands. With models designed to accommodate up to eight, its features combine to place Acadia far ahead of the rest. GMC. We Are Professional Grade.

**Innovative Technology**

- **IntelliLink**
  - 5 165 mm (6.5-in.) diagonal touch-screen
  - USB port
  - Auxiliary input jack

- **Headlamps**
  - High-Intensity Discharge projector low-beam headlamps

- **Exhaust**
  - Dual with downturned outlets

- **Transmission**
  - 6-speed automatic Hydra-Matic 6T75

- **Drivetrain**
  - Front and rear independent

- **Brakes**
  - Disc brakes

- **Steering**
  - Variable effort

- **Suspension**
  - 2-way power front passenger seat with manual recline and lumbar control

- **Seating**
  - Leather-appointed, first and second rows
  - 7-passenger seating (2-2-3 configuration)
  - 8-passenger seating (2-3-3 configuration)

- **Exterior Features**
  - Signature Denali fascias
  - Chrome. On SLE models, includes black beltline moulding; on SLT-1, SLT-2 and Denali models, chrome body-colour bodyside
  - Body-colour bodyside spotter
  - LED signature taillamps

- **Safety Features**
  - Side-impact air bags
  - Head curtain side-impact air bags with rollover protection

- **Communication and Entertainment**
  - OnStar®
  - Remote vehicle starter system
  - Remote keyless entry
  - Climate control with rear temperature control
  - Sunroof

- **Power Outlets**
  - 3-prong, 115-volt, household-style

- **Power Door Locks**
  - Programmable with 2 transmitters, panic button and extended range
