

RANGE ROVER SPORT

A horizontal light streak with a blue-to-white gradient, resembling a lens flare or a light trail, set against a black background. The streak is centered vertically and extends across most of the width of the image.

2010 MODEL YEAR

RANGE ROVER

It is the sports all-terrain vehicle. Defined by exceptional on-road dynamics, class-leading comfort and outstanding breadth of capability. And now, from the significantly revised body styling to the all-new interior and the two new engines, it is the new 2010 Range Rover Sport.

More alluring. Ready, poised in anticipation of the drive ahead, the new 2010 Range Rover Sport is more assertive than ever. New front and rear bumpers enhance its boldness; new headlamps with LED technology and a new front grille and side vents envelop the new 2010 Range Rover Sport with even more charisma. There are new rear light clusters adding even more LED technology, a new spoiler, three new alloy wheel styles and dramatic, new exterior colors. New appeal. New 2010 Range Rover Sport.

More luxurious. Step inside the new 2010 Range Rover Sport and step up a class. Comprehensively revised, it just keeps getting better. The unique cockpit driving position becomes even more premium with a new, totally redesigned, center console and controls, a new instrument panel and instrument cluster all placing even greater emphasis on the driving experience.

New steering wheel with 5-way navigation joysticks to maximize control and ease-of-use of the infotainment system.

New redesigned center console, new instrument panel with 5 inch Thin Film Transistor (TFT) LCD technology and optional leather surround from the Extended Leather Package.

There are new redesigned seats, available in new colors and in two grades of leather as well as leather combined with Alcantara®. An Extended Leather Package can also be specified to make the interior environment even more exclusive. New luxury. New 2010 Range Rover Sport.

More power. More performance.
More control. Two new engines –
LR-V8 Supercharged and LR-V8 both with
upgraded next-generation transmissions.
The right engines for a wide variety of
driving styles and performance requirements.
Each one offers unparalleled levels of
refinement and progressive power on demand.

New 2010 Range Rover Sport also features Adaptive Dynamics with Dynamic Program the world's first production system of its kind to be based on predictive technology. Adaptive Dynamics on the new 2010 Range Rover Sport offers class leading performance for on and off-road driving, which continually optimizes damper settings for the widest possible range of conditions. It works by predicting the response to driver input, allowing the system to mitigate any excessive movement, rather than a conventional system which reacts after the vehicle has already moved. Dynamic Program works through Adaptive Dynamics to give an even more engaging drive and further reinforces Range Rover Sport's on-road driving dynamics. New capability. New 2010 Range Rover Sport.

RANGE ROVER

Automatic headlamps with high beam assist detect vehicle headlamps/tail lamps and dip the high beam until the light source is out of range.

New Surround Camera System technology, which provides a near 360 degree view around the vehicle, utilizes five discreetly placed lenses, two in the front bumper, one in each of the wing mirrors and one in the rear spoiler.

Dynamic Program, operated through the Terrain Response® rotary control, works alongside vehicles equipped with Adaptive Dynamics to extend on-road capability still further to increase the driver's sense of connection with the road surface.

Push Button Start/Stop. The vehicle is started with a dash-mounted push button. Keyless entry enables access without activating the unlock command on the remote key fob.

Please note: When choosing vehicles fitted with specific wheel and tire combinations or optional wheels and tires, your intended use of the vehicle should be considered. Wheels with larger diameters and lower profile tires may offer certain styling or driving benefits, but may be more vulnerable to damage, please discuss your requirements with a Retailer when selecting your vehicle and specification.
