

We are Alberta's

COMMERCIAL VEHICLE LEASING SPECIALISTS

2012 Ford Transit Connect

This utility van is great for urban settings and aimed at small business owners. It is designed to meet all your transit needs.

2012 GMC Savana Cargo

From the frame up, Savana has the flexibility and capability to match your aspirations, whether you need a single van or an entire fleet of vehicles.

2012 Jeep Grand Cherokee

With unsurpassed 4x4 highway fuel efficiency, the Grand Cherokee is the ultimate blend of on road civility & off-road ability.

2012 Isuzu NQR 4500 and NRR 5500

Isuzu is a major player on the world truck stage. With 86% of all Isuzu's sold since 1986 still on the road you owe it to yourself to find out why!

2012 Toyota Tacoma

Celebrated for its toughness and off-road tenacity, Tacoma dominates the compact-pickup segment and commands nearly 40 percent market share! Be a part of it!

2012 GMC Sierra 2500HD and 3500HD

Sierra HD has what it takes to handle the most challenging assignments. This heavy duty power and performance truck has brains to match its brawn!

2012 Dodge Ram Heavy Duty 4x4

The Ram Heavy Duty is aimed at commercial users, buyers of serious, diesel-powered chassis cabs; upfitter friendliness and maintenance costs are best in class.

2012 Nissan NV Cargo

This longtime player in the global commercial vehicle market has invested more than five years researching the comfort, style and smart functionality demands of business owners.

2012 Isuzu Eco-Max Diesel

Eco-Max offers performance at work with low cost of operations through 37% greater fuel economy! Sleek and bold, Isuzu trucks make a striking statement on the highway and on the job site.

2012 Ford F150 Super Crew

Engineered and tested to withstand more punishment than your most difficult tasks can subject it to, the F-150 is built tough to come through with the dependability you expect in this full-size pickup.

We will tailor any vehicle lease to suit your financial requirements

Discover the advantages of choosing Shaw Lease as your automotive partner

DISCOVER THE PRACTICAL TRANSPORTATION CHOICE

Choosing the most practical form of transportation financing can be confusing for even the most astute business operator. That's why it makes sense to start with the company that has been a trusted supplier to Western Canada since 1962. At Shaw Lease we'll review your needs, explain your options, and suggest the most practical choice for your business.

GET THE VEHICLE THAT'S RIGHT FOR YOU, RIGHT NOW

From new and used vehicle leasing, to servicing, sales and rentals, Shaw Lease is here to provide the help you need. Looking for special use vehicles, different equipment, custom outfitting? We consult with you carefully and take care of everything.

KEEP MOVING – AND STAY COMPETITIVE

We take pride in our state-of-the-art service bays, parts department and body shop. Our business hours are also designed for the commercial client. We know that down-time costs money, so we work quickly and expertly to send you safely on your way.

STAY ON TOP OF YOUR FINANCES

We command tremendous purchasing and borrowing power, both with automotive manufacturers and financial institutions. As a result, low prices and favourable interest rates ensure that your leasing costs will be consistent with your financial objectives.

CUSTOMIZE YOUR LEASE REQUIREMENTS

As a specialist leasing company, we can design leases to your precise requirements. Simply outline your needs to your representative and get a prompt, helpful response.

SUPPLEMENT YOUR FLEET THROUGH SHORT-TERM RENTALS

Shaw Truck Rentals has a comprehensive fleet of trucks, cars, vans, and medium Duty trucks for short-term rental. When you need a temporary replacement for an out-of-service vehicle, or specialized transportation for a particular task, Shaw Truck Rentals can supply the equipment you need. Shaw Truck Rental customers always receive preferential rates for their rental needs. Call 403-287-5656.

GPS TRACKING FOR YOUR FLEET

Keeping tabs on your company vehicles has never been simpler or less expensive. With a device that plugs into your vehicles in seconds and web-based applications that are straight forward and easy to use, you can quickly be aware of where and how your vehicles are being driven. Best of all, no long term contract is required!
